

MINI COATING PUMP

Extend the life of pipes with the Picote Brush Coating™ System

The Picote Brush Coating™ system is a simple, fast, and practical coating solution used to renovate and prolong the life of stack pipes, drains, sewers, water pipes*, electrical conduits, and more.

Clean the pipe well and apply two coats for a corrosion barrier. Alternatively, apply additional coats of resin to form a new, seamless semi-structural rehabilitation that should last 30-50 years.*

Can be combined with several different Miller models to meet project needs based on pipe length & diameter.

For pipe coating and degreasing in DN32-200 (1¼-8") diameter pipes up to 22m (75') in length.

USES AND BENEFITS

- Controls the flow of Picote Brush Coating™ DC1000E, Dual Color Epoxy Resin.
- Adjustable pump speed & direction.
- Hand-held locking operator control trigger. When the button is pushed the pump is engaged and will operate until pressed again.
- Combine and secure the Mini Coating Pump to the Mini Miller, Mini Cleaner, or Super Battery Mini Miller/Mini Cleaner frames for a portable compact system.
- Can also be used to remove fats, oils, and grease from pipes by pumping degreaser down the line to assist with cleaning.
- Includes Resin Cup Package, 3x Hose Connectors, Hose Clamps and 2x Brush Stoppers.
- *NSF61 Certified for DN100 (4") and larger pipes (final coat in white).

Technical Specifications

Pipe Diameters	DN32-200 (1¼-8")
Max Range	22m (75')
Power	UK/US: 110V, 15 Amp EU: 220V, 16 Amp
Output (kw)	0.18
Weight	16kg (35.5 lbs)
Size	41x42x54.4 cm 16.2x16.5x21.5"

Optional Picote Heater
Decrease time between coats by 30%. Includes 5m (16.4') Heater Hose.

Air outlet temperature is limited to +55° C (131°F). Automatic thermal cut-out in both motor and heating element.
