

PICOTE PUSH RODS

Go Further - Extremely Strong Yet Flexible, Multi-Use Push Rods

Picote's custom Push Rods are strong enough to push and rotate, while also flexible enough to go through multiple bends thanks in part to unique customized connectors that are small enough to maintain flexibility in bends.

Multi-Use: Works with the Picote Connection Collar, Pro Packers, or Grabber Head attachments.

2 versions: a smaller diameter version with extra flexibility for more bends and smaller diameter pipes (in 2 lengths) and a larger version with more rigidity for longer runs & larger pipes.

USES, BENEFITS & PRODUCTS

Features and Benefits

- **Custom Push Rods:** Strong enough for pushing and rotation, while also flexible enough to navigate multiple bends. Use the .75m (2.5') Push Rod as the last rod close to the pipe access when only a short additional length is needed (makes turning and control easier).
- **Multi-Use:** Can be used with the Picote Connection Collars, Pro Packers, as well as the Grabber Heads for Push Rods.
- **Turn your Push Rods into a Grabber** by adding the Grabber Head or Large Grabber Head attachment for Push Rods.
- **Turning Handle:** Add the Turning Handle to make pushing, rotation, & air control extremely easy.

Technical Specifications

Category	Measurement
Length	1.5m (5') & .75m (2.5')
Products & Spare Parts	
Part Number	Description
1410000023	Push Rod 22mm (.86") - 1.5m (5')
1410000049	Push Rod 22mm (.86") - .75m (2.5')
