

EXPRESS DRILL CHAINS

Fast Reinstatements and Blockage Clearing in Cast Iron Pipes.

A convenient and fast tool to be used in cast iron pipes that are not too fragile to unblock, remove roots or grind open/reinstate connections before installing a connection collar.

Available for DN70-100 (3-4") pipes on 10mm (3/8" shaft) Millers and DN100-150 (4-6") pipes on 12mm (1/2") shaft Millers.

USES, BENEFITS & PRODUCTS

Benefits

- Quickly grind open/reinstate CIPP connections in cast iron pipes before installing a Connection Collar (can follow up with Picote Smart™ Cutter & Side Grinding Panels).
- Convenient & fast tool for cast iron pipes to remove blockages and roots, or grind out obstructions.

Features

- Express Drill Chain front head.
- Standard carbides.
