About Picote

A man with a beard, wearing a yellow hard hat and safety glasses, is looking upwards. He is wearing a dark blue jacket with a logo on the sleeve. The background shows industrial pipes and machinery.

As a long-standing trenchless contractor in Finland, Picote's focus has always been to provide the highest quality services available. Our teams work daily on projects in residential and commercial properties. We continually brainstorm to make their job easier and more efficient, for the best possible results. Our R&D team develops these ideas into new products, which are only released commercially after being tested and used at our own job sites. Picote continues to innovate and launch award-winning tools and solutions every year to benefit not only our own team in the field, but contractors around the world.

Go further with Picote

As a global team, we have always worked together across the Picote companies and country borders. This year we have focused on that teamwork, sharing resources and most especially sharing expertise. We are a local contractor, as well as a global innovator and manufacturer. Our team members are industry experts. We are truly passionate about advancing the trenchless industry through innovation, education and support, providing you with additional value and increased business opportunities.

Contracting

Our expertise is based on years of experience, working in the rehabilitation market in Finland since 1999. Our main focus as a contractor has been on developing in-house trenchless solutions for the past 15 years, providing services to Finnish property owners. How do we do it? Learn with us.

Consulting

Take advantage of the Picote Team's years of experience in the trenchless industry, from job site planning to job completion and on-site product training. We work with you every step of the way.

New Picotegroup.com

You can access all of Picote's products and services from our new website, including useful case studies. Download a range of Picote product materials such as Quick Guides and Operating Manuals. Learn more about Picote's Finland-based contracting services and our global consulting services supporting contractors on job sites worldwide.

Ultimate support centre

Picote Institute includes global training centres, as well as online learning and resources. Register for free at picoteinstitute.com to access courses, technical videos, direct contact with Picote experts and a wide range of useful resources. Face-to-face trainings are available at one of our dedicated Training Centres in Finland, England, Scotland, or USA or at your own location. Virtual trainings are also available!

Products

Over the years, Picote has introduced many award-winning, patented innovations to the global market. These are durable, efficient products tested on our own job sites and shipped to different parts of the world.

Picote Institute

Enjoy a 24/7 Resource Centre with online learning and other resources, as well global training centres for technical support and face-to-face or virtual trainings with our expert Team.

Get the most out of your Picote with our Technical Trainers
